THE SCOURGE OF THE UNIVERSE!!!
CHOLERA

SUCCESSFULLY TREATED BY THE USE OF
COTTER'S CHOLERA PILLS.

Now that the frightful ravages of cholera is the subject of controversy among our eminent Medical and Sanitary authorities, it behoves us to look to ourselves, and to seek the knowledge of a faithful reliable medicine, which, while being thoroughly efficacious, will also come within the reach of the means of everyone.

COTTER'S CHOLERA PILLS!!!

Have obtained a reputation which, if it was more generally known, would prove an eminent blessing to thousands of sufferers. The present holder has obtained the sole proprietary right from Mr. Cotter, and the cause of humanity demands, undeniably, that the public should be made fully cognizant of a remedy so easy of access.

COTTER'S CHOLERA PILLS

Surpass any other medicine in the world for efficacy of properties, and several have derived great material benefit from a medicine which has only to be tried to recommend itself, even to sceptics in matters medicinal. In every fact, Cotter's Pills are miraculous in their effects, and will eventually prove their many advantages in the face of any other choleraic preventive.

COMMERCIAL INTELLIGENCE

WEDNESDAY EVENING, JAN. 14.

RATES of discount in London remain unaltered, but Consols are ¼ higher at par; Rupee Paper is 1-16 lower, Fours being quoted 87⅞ 10s., Fours-and-a-half £80 10s. French rentes in Paris are still at 109¾.

The Mincing-lane markets are unchanged.

Cotton in Liverpool yesterday was quiet, the day's sales being estimated at the unusually small total of 5,000 bales, of which 700 were Surats. On the spot prices are without change, but to arrive Americans are 1-64d. to 3-64d. lower. In New York also only change is a decline of 1 point in futures; ready Mid. Uplands being 11 1-16, May shipment 11-32 cents per lb. The receipts at the ports to date are as follows :—

	1885.	1884.	1883.
Tuesday's receipts	20,000	18,000	21,000
Four days' do.	70,000	51,000	79,000
Total since 1st Sept.	3,337,000	3,078,000	3,947,000

The dulness at home is at last beginning to have some effect here, and there has been much more willingness to sell to-day at a decline of Re. 1 to Rs. 2 per candy in every growth except Bengal. That is turning out both so deficient in quantity and inferior in quality that sellers are afraid to contract for it on almost any terms. Quotations to-day are :—

Good Bengals, February	Rs. 162 to Rs. 164
" Oomras, March	" 198
" Broach	" 225
" Dholleras, April	" 198

WHEAT is dull, and, owing to the firmness of Freights, rather lower in value, No. 1 white Pessy being back to Rs. 25.

SEEDS are quiet but steady.

FREIGHTS continue firm for near loading at 26s. 3d. to 27s. 6d. for Liverpool and 27s. 6d. to 28s. 9d. for Continental ports. Business has been done for Genoa for February, March, April loading at 32s. 6d., payable here at 2s. ex. and another steamer is reported fixed for March-April loading at 26s. 3d. open charter.

COALS are dull for distant shipment, Cardiff for for February-March having been sold at Rs. 15. But supplies near at hand are limited, and Rs. 16-12 to Rs. 17 is asked alongside.

PIECE-GOODS are very dull both here and at home. Manchester sellers would be disposed to concede something to do business, but the slackness of the up-country demand makes dealers here very chary about indenting.

EXCHANGE opened quiet to-day, and on receipt of weaker telegrams from Calcutta a decline of 1-32d. was established. Even at the reduction there has been no disposition to sell private paper, the fact being that there are no bills making. We quote :—

Bank Bills on demand	1s. 7 3-16d.	per rupee.
Do. Telegraphic	1s. 7 3-32 to ¼d.	"
Credits 3 mos. the right	1s. 7 ¼d.	"
Francs	2·02½	"

GOVERNMENT PAPER has been firmer again in sympathy with Calcutta, where a decided reaction from the previous depression appears to have set in. Fours are up to Rs. 98⅝, Fours-and-a-half to Rs. 101¼.

SHARES.—Spinning Mills are again Rs. 2½ to Rs.5 weaker, and even at that prices in most instances are quite nominal. A correspondent sends us the following with reference to a para. which appeared in our issue of to-day :—

THE COORLA MILL.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—There is an interesting para. in your paper this morning about some debentures of the Coorla Mill having been paid off at par, and mentioning that the house of Hormarjee's took 300 shares at par in 1882. You might have added that the shares are now at Rs. 375 discount; and if you could have told the shareholders what the next dividend will be, it would have been more interesting than the information that "the last dividend paid by the company in June last was at the rate of six per cent per annum."

The Bombay Gazette

THURSDAY, JANUARY 15, 1885.

THIS morning we publish a Resolution of the Government of Bombay on the proposed site for a cholera hospital in the Fort. We also publish a report of the proceedings of the Town Council held yesterday, in the course of which some additional facts were mentioned by Dr. Blanc, the medical officer in charge of the European General Hospital, by Mr. Ollivant, the Municipal Commissioner, and others. The purport of the letter of the Surgeon-General, Dr. Beatty, objecting to the establishment of a cholera hospital in what is called somewhat inaccurately the "compound" of the hospital in question, will be found preceding the Government Resolution. We have now, therefore, full materials for forming a correct estimate of the question so tardily but so excitedly raised in regard to a very simple affair. As our readers are aware, the subject was publicly discussed in the month of October last, and though some objections were raised, and were pointed out in our columns and elsewhere, the general agreement was that the Government had done well in placing this particular site without charge at the disposal of the Municipal Corporation, which had very liberally agreed to erect six similar local hospitals throughout the city, the cost of this one being fixed at thirteen thousand rupees. It now appears that more than a month after the question had been disposed of to the satisfaction of Dr. Hewlett, the Sanitary Commissioner, of Dr. Blanc, the Physician of the hospital, of the Government of Bombay, and of the Municipality, Dr. Beatty, the Surgeon-General, possibly piqued because his opinion had not been taken, sent in to the Government a protest couched in rhetorical phrase, denouncing the contemplated arrangement as a "most unwise and, indeed, dangerous procedure." He affirmed that it was specially dangerous to bring a "supposed infectious disease into the immediate vicinity of convalescents," who it is well known are much more susceptible to infection than others in sound health. The Surgeon-General further objected to the Resident Surgeon of the European General Hospital being appointed to the charge of the proposed cholera hospital; and he concluded by declaring that "the plan proposed was in opposition to all principles hitherto laid down for the prevention of the spread of cholera

TELEGRAMS.

THE DUKE AND DUCHESS OF CONNAUGHT.

(FROM OUR OWN CORRESPONDENT.)

CALCUTTA, JAN. 14.

The Duke and Duchess of Connaught arrived here this morning, accompanied by Lord and Lady Down, Major Becher, and Dr. Scott. The arrival was quite private. The party were received at the station by Lord William Beresford on behalf of the Viceroy.

The Duke is expected to be present at a brigade parade of the troops in garrison on Friday morning for inspection by the Commander-in-Chief. A ball is in preparation, to which the Duke and Duchess have accepted invitations. It is to be a very grand affair.

THE CONDITION OF MAHOMEDANS IN INDIA.

(FROM OUR OWN CORRESPONDENT.)

CALCUTTA, JAN. 14.

A deputation of the Mahomedan Literary Society presented an address to the Viceroy to-day in which they expressed the hope that the present backward condition of the co-religionists in India would not fail to receive the sympathetic consideration.

In replying the Viceroy said in their legitimate desire to fit those in whom they took so deep an interest for a successful professional career it was scarcely necessary to warn the descendants of warriors, poets, and philosophers of olden times that the mental agility and acquisitions obtained in schools and colleges constitute after all only a portion of man's equipment for the battle in life, and that love, truth, appreciation of the dictates, honour, nobility of character, cultivation of modesty, manliness of demeanour, and habits of self-abnegation are as necessary in training the youth of a great nation as proficiency in a dozen languages or ample acquaintance with the mysteries of arithmetic or mathematics.

At the meeting of the Town Council yesterday, Dr. Blanc took occasion to give his emphatic opinion that there was not the slightest ground for the alarm raised by a contemporary that the site of the proposed cholera hospital in the Fort was in dangerous proximity to the European General Hospital. Dr. Blanc said that he, as the head of this hospital, was most concerned in its welfare; but he saw no objection whatever to the building of the cholera hospital at one end of the compound. The speaker was very sorry that the question of race difference had been raised in the matter by the *Times of India*. Mr. Geary and Sir Frank Souter concurred in the views expressed by Dr. Blanc. With regard to a statement made by the Health Officer in one of his reports that a very large number of people attacked by cholera during every epidemic in this city were natives of Rutnagherry, the Municipal Commissioner was asked to make a report stating the percentage of deaths among the Rutnagherry-born people, as compared with the mortality among the rest of the inhabitants.

His Excellency the Governor presided yesterday at an interesting ceremony in the Town Hall in connection with the Bombay centre of the St. John Ambulance Association. An encouraging report of the operations during the past year was read by the honorary secretary (Mr. Harold R. King), which stated that 181 pupils had attended the seven classes held in Bombay. Fifty-four passed the prescribed examination, Sir James Fergusson and many ladies being among the number. The Governor having delivered an address in furtherance of the objects of the Association, distributed the certificates of proficiency, receiving his own at the hands of Mr. E. C. K. Ollivant amid loud cheers.

The formal notification of the appointment of the new judges to the Calcutta High Court was received on Sunday, and Mr. Trevelyan and Baboo Chunder Madhub Ghose took their seats on the Bench on Monday.

H. E. the Commander-in-Chief in India has been pleased to direct that in future no ram shall be issued in canteens before noon. Commanding officers are also exhorted to encourage the men, as much as possible, to mix the spirit ration with aerated or ordinary water.

Mr. E. Ward, Officiating Judicial Commissioner in British Burma, acts as Chief Commissioner of Assam during Mr. Elliott's absence.

A despatch has arrived from the Home Government regarding the proposed changes in the conditions of service of the Royal Engineers in this country. The principal features are, it is believed, the reduction of the period of service to five years, and with the increase of pensions for those who elect to serve altogether in India.

Her Majesty the Queen telegraphed, through the Viceroy, to the Resident in Meywar, that she had heard with much regret of the death of the Maharana of Oodeypore, and desired that her condolence and sympathy might be expressed to the family. The Secretary of State and Lord Dufferin have telegraphed the expression of their sympathy.

When Major Collen, Deputy Secretary in the Military Department, Government of India, returns from the privilege leave for which he has just started, he joins the head-quarters of the Department at Simla, or wherever they happen to be at the time, the portion of the office staff which remained in Calcutta throughout the year being placed under a junior assistant.

Somebody wants to know whether a railway passenger can travel at his own risk, and this point, remarks an up-country paper, has been referred to the Legislative Department, though not in the shape of a conundrum. The question is connected with a special traffic service conducted by the Darjeeling Railway Company, who apparently seek to exempt themselves from the penal consequences of any injury done to the passenger. The question might, one would think, be settled by reference to the Railway Act, or ought to be.

Amongst the gentlemen called to the Bar for the Michaelmas Term of the past year were Mr. Wm. Scott Forman, University of Glasgow, and of the Bombay Civil Service; Moung Bato Ohn, son of the late Moung Khine, Sub-Divisional Magistrate of Twantay, British Burma; Syed Mahomed Habib Ullah, Balliol College, Oxford, youngest son of Syed Riazuddin Ahmed, of the North-West Provinces; Mr. Edward Rushton, son of the late Mr. Wm. Rushton, of Calcutta; Mr. Robert Thomas Gill, only surviving son of Major R. Gill, of Jaulnah; and Mr. Henry Faure Aston, Bombay C. S.

The following incident which took place during the hearing of a case in the Calcutta Appeal Court, "Nundololl Bose and another *versus* the Corporation," shows how much the opinions of learned judges may differ. Mr. Pugh, in the course of his argument, having observed that if the court had no power to interfere in matters of assessment similar to that of which his client complained, the Legislature must, Mr. Justice Wilson gave it as his opinion that if the Legislature were inclined to interfere, it would be in the direction of altering the law so as to enable the Commissioners to do in all cases what they had done in Nundololl's. The Chief Justice differed from his learned brother. In his opinion, this sort of assessment was fanciful to a degree. They could not, he said, possibly have a more fallacious or unjust test of the value of premises than that which the assessor had adopted in this case. Who is to decide when judges differ?

His Excellency the Viceroy has consented to give the usual prize to be shot for at the Annual Meeting of the Calcutta Volunteers for prize rifle-shooting. The first stage will be shot for at Bailgurriah and Kanchrapara on the 20th, 21st, and 22nd instant, and also on the latter date at Ballygunge, when no less than twenty prizes will be competed for. The second stage for the Viceroy's Cup will be held at Ballygunge on the 21st of February, 1885, when the makers of the thirty best scores in the first stage will be eligible to compete.

Referring to the town's meeting in Calcutta to raise a memorial to the late Kristodas Pal, the Allahabad paper says it affords remarkable evidence of a healthier feeling between Europeans and natives. This is attributed mainly to the personal anxiety of the Viceroy to re-establish a cordial understanding between the rival parties who had been so lately in conflict. "His impartiality towards all, his keen sympathy alike with the aims of his fellow-countrymen in India and the aspirations of the native community," the *Pioneer* says, "have been made so apparent in the capital that he has paved the way to a reconciliation which we sincerely trust is likely to be permanent. The meeting on a common platform of representative men of all classes and creeds, such as was seen in the Corporation Hall on Saturday, is proof positive of the healthy change which has already taken place; its effects will be more than local, for the genuineness of the feeling shown by the Anglo-Indian community cannot fail to sweep away the distrust and suspicion which until late reigned supreme in the mind of the native community. When a movement to do honour to a native statesman, for such Kristodas Pal was in many ways, is quickened and stimulated by the hearty co-operation and sympathy of Englishmen, official and non-official, there can be little ground for further discord and recrimination between the two races."

Mr. Hastie has been defeated in every step he has taken in his attempt to throw discredit on the Calcutta Scottish Mission, and he has received a rebuff at the hands of the Judicial Committee of the Privy Council that surely ought to have convinced him that the course he has been pursuing has, to say the least, been extremely ill-advised. Yet we have not heard the last of him. The *Statesman* says he is now on his way back to India, the General Assembly having been ill-advised enough to allow him the opportunity which he has demanded, of proving the Scotch Mission in Calcutta to have been a place of ill-repute for many years. The *Statesman* adds:—"Instead of passing the vile charge by, and ordering the slanderer out of the Assembly, the Assembly was weak enough to think it necessary to disprove the charge, by allowing Mr. Hastie the opportunity of showing on what he based it. A commission of three delegates from the Assembly are consequently on their way to Calcutta, to inquire whether the missionaries of the Scotch Kirk are what the malignity of this man declares them to be. The city has a right to be indignant at the institution of such an inquiry in its midst."

The consequences to the Marines, says *Truth*, of their sojourn at Suakim are as follows:—Out of a force of 900 men, one officer, Lieutenant Hamper, and 27 men have died, 109 have been invalided home, and 206 have been in hospital at Suez.

The same authority learns that the Mudir of Dongola is in constant communication with the Mahdi, and the feeling for Islamism is so strong, both in Egypt and in the Soudan, that we are without a real friend in either country.

General Booth has given a new interpretation to the doctrine of the Communion of Saints. According to *Truth*, the General was defending the Salvation Army against an accusation by Canon Liddon, that they had only a "truncated creed." "Of course," remarked Mr. Booth, "they believed in the communion of saints. If he was walking along the street, and a comrade was on the top of a 'bus, that comrade should 'Hallelujah!' and he would respond with 'Amen!' That was the communion of saints."

The *Athenæum* thus unkindly remarks upon the translation of a German translation of Mr. A. P. Sinnett's "Esoteric Buddhism":—"In the prospectus Prof. Max Müller is referred to and quoted in a way likely to be misleading to those unaware of the satirical allusion to 'Esoteric Buddhism' in the professor's Kensington lecture on 'Buddhist Charity.' Perhaps the latest revelations concerning 'occultism' in Madras have not reached Germany."

Some sensation was created in Paris a few days ago by the news that guns had been fired from a fort at Rio Janeiro while the French steamer Gironde was entering the port, and that the French Minister had been instructed to demand an explanation of the Brazilian Government. It now appears that this is not an isolated case, as the following report, drawn up on the 2nd ultimo by the commander of the Comte d'Eu, another French ship, shows. The writer says:—

While entering the roadstead of Rio Janeiro this morning with the necessary flags and the number of the steamer displayed, the fort of Santa Cruz fired a gun loaded with a blank charge. I immediately directed that the ship should be stopped, but before she had come to a standstill two more guns were discharged. I at once backed the steamer with all speed. A few moments afterwards the fort hoisted a signal which we could not distinguish, and as we were approaching to read it, two more shots were fired at us. It was not until half-past ten that the ship's signals was made to us to enter the port and to anchor at the quarantine station. As soon as the officials came on board I asked them why the guns had been fired at the fort of Santa Cruz, and the doctor and the inspector replied that it was "amusement" in which the commanding officer had for some time indulged, and that he had on several occasions been reprimanded for it.

The last administration report on British Burma notices a decrease in the export of rice from that Province, during the year under review, to the value of £405,352. The export having amounted to £5,969,671 in 1882-83, and £5,564,319 in 1883-84. As the world's demand for rice has long been on the increase, it is to be presumed from these figures that its growing wants are now being supplied in an expanding degree by other countries than British Burma. That Province, indeed, with the enlargement of the rice-supply from Java, Siam, Cochin China, and other competing countries, can no longer be allowed a claim to the practical monopoly of the rice market which it once possessed. "The existence of this monopoly," remarks a Calcutta paper, "might at one time have been passed as an argument for the maintenance of the export duty on rice still imposed by the Government of India, but the change in the status of Burma among the world's rice-producers renders the continuance of the impost a dangerous drag on the commercial prosperity of the Province. The rice trade, it is well to bear in mind, constitutes well-nigh the whole export trade of Burma, and the commercial stability of the Province is entirely dependent upon it. The further continuance of the duty bodes the most disastrous consequences to the trade, and the appearance of the Budget will be watched for with anxiety, in order that it may be seen whether the Government intend to allow another year to pass without dealing with the matter."

MILITARY NEWS.

In the Bengal Army List which has just been published, the names "Native Cavalry" and "Native Infantry" are done away with. Instead of 1st Regiment of Native Infantry, we have 1st Regiment Bengal Infantry, and so on. The 14th and 15th Regiments are designated as the Ferozepore and Ludhiana Sikhs. The 18th Regiment drops Alipore altogether from its name. The Punjab Regiments figure as 19th, 20th, 21st, 22nd, 24th, and 31st Regiments (Punjab); and are elsewhere classed as Bengal Infantry. Another change made is the abolition of the title "Army Medical Department," which, in accordance with the new rule, is changed to "Army Medical Staff."

BOMBAY VOLUNTEER RIFLE CORPS.

The seventh annual report of the Bombay Volunteer Rifle Corps, dealing with the season of 1883-4, was yesterday issued to the members. Captain Atkinson, by whom it is prepared, notes that this year he is able to supply his own data, and to write from an entire year's practical experience as Adjutant of the Bombay Volunteers. The following extracts from the report clearly show the position of the corps at the close of the last season:—

"I think I may fairly state that the financial condition of the Corps is in every way satisfactory. It is unnecessary to go into details here, as further on will be found the separate accounts in due form. There were (to use the words of the sub-editor of the *Bombay Gazette*) "shoals" of letters written to that paper during the month of August, headed "Decadence of Volunteering in Bombay," and I was written to and asked to make some sort of reply. It is needless to say I refused, for various reasons not among the least being the fact that I am not permitted to enter nor am I in the least inclined to be dragged into a paper warfare on any subjects, particularly those which the military authorities would decidedly take notice of. I can, however, say in this report that I consider it exceedingly unfair and in very bad taste on the part of the writers, whoever they were, to try and wage war against a movement so liberally supported by the Government as the Volunteer movement in Bombay. Enrolled Strength, Efficients, &c., will simply quote the difference in the 1883-84 capitation grant, as compared with that of 1882-83, that difference being an increase of Rs. 1,155 for 1883-84.

"A few officers and men have left the Corps. I confess there is a falling off in officers, but recruits are plentiful, and I hear that there is a regular recruiting office somewhere in the Fort. The remark made last year of about men keeping their names on the roll and seldom or hardly ever turning up for parades, I very much regret to say, still holds good. It is not fair on the funds of the Corps, and I look upon it, that every man who enlists gets a uniform, and then deserts, has robbed not only the Corps, but has also defrauded the Government capitation grant. The worst of it is that, though these paper-men get clothing, many don't even draw their rifles and accoutrements from stores. All except seven rifles were returned to the Armoury this season, and as all that were returned were sent to the Arsenal and painted, those seven delinquents will doubtless be brought to book if they ever turn out for parade.

"The following officers have resigned:—Lieuts W. F. Ross, R. L. Stewart, A. B. Anderson, and F. Nicholson, and Surgeon-Major Langley, A. M. D. Officer joined.—Lieut. F. H. De Mornac.

"The following return shows the increase and decrease in the Corps in detail since the previous season:—

"A glance at the above statement is sufficient to show the increase and decrease under the first four headings. So no further comment is needed except that I hope it may meet the eye of some of the newspaper scribblers. "D" Company at one time dwindled low, but revived again under Capt. Bhicajee, aided by his very able Colour Sergeant Brewin, and E Company under Captain Roughton, assisted also by his very able Colour Sergeant Melvin, is making a gallant struggle to head the list, and still continue doing so. The cadets form no insignificant item this season, and are included on the strength of their having aided considerably towards the capitation grant, many having fired their annual course after the inspection."

In the following table is shown the number of extra-efficients, efficients, and non-efficients in the Corps during the season:—

Company.	Extra Efficients.	Efficients.	Non Efficients.	On Leave.	Total Strength.	Commanded by.

,, 1882	386	126	126	9	647	

"Though the above statement shows an increase of 57 extra efficients, still I would add the remark that the Corps is not improving, namely, that the Saturday Commanding Officer's parades hardly came up to the proper standard as to numbers so as to uphold the fact that there are 370 extra and 117 efficients in the Corps, forming a total of 490 resident in Bombay.

"In the following table will be found the number of drills attended by each company, as also for each member of the company:—

"In the above statement or table it will be seen that, leaving out our boy cadets, whose parades at Byculla School are, I believe, compulsory, "C" Company again heads the list, followed fairly closely by "D" and Cemposites. The Poona and Kirkee Companies are a shuffle over in their average than last season. The cadets throughout show a very good attendance. The monsoon evening drills kept up their average of 33.

"Although there was no guard of honour during the year, as joining the streets does not really constitute such a guard, the Corps, including the Poona detachment, received their Royal Highnesses the Duke and Duchess of Connaught on arrival. Among the extraordinary parades were the Proclamation Parade and the Queen-Empress Birthday Parade. Respecting these the Adjutant writes:—

"It was a noticeable and regrettable fact that many members of the Corps were observed to be amongst the spectators. They could not plead the excuse that their employers would not give them leave, nor that they had not time, for before they remained until the end of the parade, and I repeat that no matter what the cause may have been, the attendance on this parade was simply disheartening."

At the ordinary parades the average attendance was 26·10 less than the previous season. In connection with the annual inspection there were 419 on parade of all ranks, including staff, out of a total of 622; and the following Government Resolution was subsequently issued:—

"Resolution.—His Excellency the Governor in Council is gratified to receive so satisfactory a report of the inspection of the Bombay Volunteer Rifle Corps. The marching and bayonet exercise as also the volley firing by companies, half Battalion and Battalion, are reported by the Inspecting General to have been very creditably performed. The Battalion manœuvres were likewise well done. The satisfactory progress is reported to have been made in musketry, the figure of merit being 9·05 better than last year, and the number of extra-efficients in the Corps having risen to 377.

"The following return for the musketry season of 1883-84 shows a great increase in the Corps figure of merit; and though there were eight men less than fired volley firing, there was an increase of forty-five more marksmen, and also an increase of forty-six more first-class shots. Sergeant A. T. Murray again, and for the third time, becomes the holder of the challenge shield presented by Lieutenant-Colonel the Hon. L. H. Bayley. Amongst the cadets there is a corporal, G. Baker, quite a boy, who has made 156 points—a promising young shot.

Respecting the band, which consists of 27 members, the Adjutant remarks:—"The expense to the Corps of maintaining the band is very great, and notwithstanding the subscriptions from officers (some of which are entirely withheld) proceeds of engagements, fêtes, &c., the receipts by no means meet the expenses. There are no subscriptions from the public or honorary members to speak of, and in fact Bombay seems to take little or no interest in either our citizen soldiers or its band."

Captain Atkinson adds:—"I have no hesitation in saying that Colour-Sergeant Abbot and Sergeant Instructor Walch have performed their duties at headquarters in connexion with the Armoury and Orderly room in a most satisfactory manner. I have to thank Captain Bonnerjea again for kindly performing the duties of Adjutant during my absence on leave. The work in the office has been carried on very satisfactorily."

BOMBAY TOWN COUNCIL.

At the weekly meeting of the Town Council yesterday, there were present:—Sir Frank Souter (chairman), Col. Merewether, Captain Morland, Mr. Geary, Dr. Peterson, Dr. Blanc, Messrs. Nanabhoy B. Jeejeebhoy, R. M. Sayani, Nowrojee Furdoonjee, R. N. Khote, M. N. Banajee, and Dossabhoy Framjee.

PURCHASE OF PROPERTIES.

The seal of the Corporation was affixed to three deeds of conveyance from persons whose land and buildings have been purchased by the Municipality as part of the site of the new road across the old race-course.

PUTAWALLAS' UNIFORMS.

The seal of the Corporation was also affixed to a contract entered into by the Municipal Commissioner with Y. A. Lacka and Company for the supply of uniform clothing for two years to all Municipal havildars at Rs. 40 each, and peons at Rs. 20-10 each.

LIVE-STOCK OF THE MUNICIPALITY.

The Council recommended the Corporation to sanction the writing off, as loss, of Rs. 2,913-14-4 from the live-stock returns of the Health Department, being the book value of twenty-three bullocks that died, one that was destroyed, and twenty-eight that were sent to Pinjrapole during the quarter ending 31st August, 1884.

PAYMENT OF PENSIONS AND GRATUITIES.

The Council sanctioned the payment of a pension of Rs. 26-7-9, per mensem, from 25th February, 1884, to Mr. J. B. Rebeiro, clerk, Deputy Executive Engineer's Department. The pensioner's net service is 24 years and 17 days, and the medical certificate in his case states that he is completely and permanently incapacitated for further service of any kind in consequence of emphysema of lungs and defective vision. The Council also sanctioned the payment of a gratuity of Rs. 91-12-5 to Bapoo Mahadoo, peon of the said department. The applicant's net service is 9 years 7 months and 7 days, and the medical certificate in his case states that he is completely and permanently incapacitated for further service of any kind in consequence of old age and debility.

TOWN DUTY ON SUGAR.

The following letter addressed to the Secretary of the Town Council, on the subject of the town duty on sugar was submitted to the meeting:—

Sir,—We beg to state that on the 21st November last, an application was addressed to you by ourselves and other sugar merchants of this place on the subject of the town duty being assessed at a very heavy rate on sugar and sugarcandy. But, we regret, no reply whatever has been received from you. You will find that a great change has taken place in the prices, since the last month the price obtainable in the market being Rs. 11 per cwt. for the first quality of sugar. It is therefore necessary that prompt measures should be taken by the Corporation to fix a reduced rate to levy the town duty, as we suffer a great loss by paying heavy amounts at the present rate of Rs. 16-8 per cwt. Awaiting an early reply.—We beg to remain, &c., Jairazbhoy Peerbhoy & Co.

The subject was allowed to stand over till the next meeting.

MORTALITY AMONG MUNICIPAL BULLOCKS.

With reference to the Town Council's Resolution No. 2141, dated 6th February, 1884, relative to the mortality amongst the bullocks of the Health Department during the quarter ending 30th November, 1883, the Commissioner submitted to the Council certain information.

The papers were referred to Dr. Blanc for his opinion.

CHOLERA OUTBREAKS.

The Council then proceeded to consider a report by the Municipal Commissioner showing the manner in which the expenditure of Rs. 7,000 (charges incurred during the outbreak of cholera) had been incurred, together with a brief report from the Health Officer as to the character of the outbreaks of cholera, and other particulars bearing on the subject which might be considered of interest.

Dr. Blanc asked what stage had been reached in the proposal to build a cholera hospital in the compound of the European General Hospital. He made this inquiry because he was afraid that one of the leading papers in Bombay had been induced to make a statement which he must say was totally inaccurate. (Hear, hear.) There was always a difficulty in placing special hospitals in any spot, whether they were for small-pox, or cholera, or those or such other diseases. The committee had carefully examined the different sites available for the erection of cholera hospitals for the reception of the poorer classes of inhabitants in the city, and with regard to the Fort no spot was considered by them to be so good as the corner of the compound of the European General Hospital. As one who always liked to take the full responsibility of his actions, he would say that he was one of those who had recommended that site. He supposed that no one in Bombay could take a greater interest than himself in the welfare of the hospital of which he was in charge; so that if he did agree to the site, the hospital which was about at present for the reception of European patients, and more near the road, it was proposed that the Government should be asked to give a spot to the Municipality; and the consideration that the two cholera hospitals would be near each other went rather in favour of the committee's choice of the site than against it. Dr. Blanc said further that from his knowledge of the class of patients who came to the European General Hospital there would be no reason for fear or anxiety; nor would there be any objection on their part on the score of race difference. He was sorry that the question of race difference had been raised at all. (Hear, hear.) In Madras the General Hospital was both for Europeans and natives. But the patients would still be kept apart, even though in close proximity to one another; and he had not the slightest doubt that no objection on that ground would be raised by anyone connected with the institution. The hospital would be under the supervision of the resident surgeon, which would ensure safety—he would not say for the European General Hospital, which would be far out of the way, but more especially for the houses which would be erected in close proximity to the spot. If there had been any reason for alarm, it might have been more properly raised by the wealthy natives residing close to the spot. But they made no complaint, nor did those who owned houses in the vicinity to the other building.

The Municipal Commissioner said that the land was given by Government, and the money by the Municipality. He (Mr. Hope) was not in a position to speak of the ground as part of the compound of the hospital. There was a large area which belonged to Government, and a big building that stood in it was given to the hospital. The rest of the land belonged to the Government.

The Chairman said the Goculdas Tejpal Hospital had only detached wards for small-pox and cholera patients within the compound, and he thought the Baroness de Noailles would be in very much the same position. (Hear, hear.)

The papers submitted to the Council were then referred to Dr. Blanc for any proposal he might wish to make.

SANITATION AT MODY-BAY.

The Municipal Commissioner had been asked by the Council to require the Port Trust to abate a nuisance at Mody-bay, against which the Acting Health Officer had complained in his third quarterly report of 1883.

The Commissioner said that steps had been taken against the nuisance. Watchmen were kept to guard the foreshore from being fouled in any way, and the buffalo stables, which were objectionable from a sanitary point of view, had been removed.

CHOLERA AMONG THE NATIVES OF RUTNAGHERRY.

With regard to a statement in the Health Officer's report that a very large number of people attacked by cholera in every epidemic in this city were natives of Rutnaghery, the Council, after some discussion, asked the Municipal Commissioner to furnish a report showing the percentage of deaths among the Rutnagherry-born people as compared with the mortality among the other inhabitants of the city.

MUNICIPAL AUDIT.

Mr. Nowrojee Furdoonjee, in accordance with a notice given by him, invited the Town Council to consider the subject of Section 30 of the Municipal Acts, which imposes, on the Town Council the duty of conducting "a weekly audit of the Municipal receipts and disbursements," and, with reference to a recent vote of the Corporation, to inquire if the Council desired to make any and what arrangements for performing the said onerous functions. Mr. Nowrojee had noted with regret the non-fulfilling the intentions of the Legislation in this matter.

Mr. Geary contended that as things went at present, they clearly fulfilled the intentions of the Legislature which would never have contemplated that the Town Council should go into the details of each audit. Such a course would be simply impracticable.

Dr. Peterson urged that what they were concerned to know in the matter was how the law exactly stood, and he therefore proposed "that a reference be made to the solicitors setting forth the present practice in regard to this matter, and asking to be favoured with an opinion, (1) as to whether such a practice satisfied the section, and (2) in the event of that question being answered in the negative, as to what action on the part of the Town Council would satisfy the law. That the attention of the solicitors be drawn to the impossibility of the Town Council undertaking a detailed weekly audit."

The Council then adjourned.

Dealing in Dangerous Goods by Railway.—Inspector O'Connor, of the Railway Police, yesterday charged Ramrao Buckshi and Recumdas Benichand, before Mr. Cooper, at the Fort Police Court, with tendering to the Great Indian Peninsula Railway dangerous goods for despatch on the 9th of January. The accused had despatched a parcel by the train on that day, but did not specify what it contained, and it was placed in the brake-van of the evening mail. When the train reached Byculla, it was found that one of the parcels in the guard's van was on fire. The flames were quickly put out, and on examination it was found that a bottle of sulphuric acid had been broken and had set fire to the whole parcel, partially damaging a large roll of canvas and chamois leather. Inspector O'Connor explained that the damage done was not very great, but that if the fire had not been discovered at Byculla the result might have proved disastrous both to life and property. The train would have next stopped at Panna, and by that time the whole brake-van might have been on fire. The first accused said that a friend wrote to him from up-country, asking him to send up some sulphuric acid. He made up a packet, and gave it to the second accused, who promised to forward it. His worship said that if the fire had not been discovered as soon as it was, several carriages attached to the train might very likely have been burnt, and the passengers injured. He would pass such a sentence as would prevent others from acting in

DR. J. COLLIS BROWNE'S CHLORODYNE

THE ORIGINAL and ONLY GENUINE.

A DVICE TO INVALIDS.—If you wish to obtain quiet, refreshing sleep, free from headache, relief from pain, and nausea, to warm and nourish the weary sinkings of protracted disease, invigorate the nervous system, and regulate the circulating systems of the body, you will provide yourself with that inestimable remedy discovered by Dr. J. Collis Browne (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.
CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.
CHLORODYNE acts like a charm in Diarrhœa, and is the only remedy in Cholera and Dysentery.
CHLORODYNE effectually cuts short all attacks of Hysteria, Palpitation, and Spasms.
CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1882, to J. T. Davenport, Esq., 33, Great Russell-street, Bloomsbury, London. Dear Sir,—We embrace this opportunity of congratulating you upon the widespread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has obtained for itself, not only in this climate, but all over the East. As a remedy of general utility, we doubt question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances of undoubted efficacy of Dr. J. Collis Browne's Chlorodyne in Diarrhœa and Dysentery, Spasms, Cholera, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, which have occurred under our own observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling powers. We have never used any other form of this medicine than Collis Browne's, and from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a DELIBERATE BREACH OF FAITH ON THE PART OF THE CHEMIST to the purchaser and PATIENT. We are, sir, faithfully yours, Symes & Co., Members of the Pharmaceutical Society of Great Britain, His Excellency the Viceroy's Chemists.

CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Collis Browne was undoubtedly the Inventor of Chlorodyne; that the story of the defendant Freeman was deliberately untrue, which he regretted to say, had been sworn to in this Court. The "Times," July 13, 1864.
Sold in bottles at 1s. 1½d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
CAUTION.—Beware of Piracy and Imitations.

"THE PIANO FOR INDIA."
The experience of nearly thirty years proves that
S. ROSE AND CO.'S
SYMPATHETIC GRAND SQUARE PIANO
is, par excellence, the best suited for the climate of India.
WE GUARANTEE EACH PIANO. { "This piano was awarded a first-class certificate and medal of the Calcutta Exhibition." } WE GUARANTEE EACH PIANO.

S. ROSE & Co., have supplied many hundreds of their noted Sympathetic Grand Square Pianofortes to residents in all parts of India. No one instance has occurred of a "Sympathetic" having given way; of course the action and mechanism will wear; but S. ROSE & Co., have seen "Sympathetics" which, after twenty years' use, have, after the entire action has been renewed, been as rich and beautiful in tone as when quite new.
All parts of the instrument have been studiously cared for in the manufacture; the external case being of solid mahogany, with ornamental fret work at the openings. In regard to tone and touch it is a first-rate instrument.
The term "Sympathetic" was first used to designate the character of tone. The term has been made use of by others without scruple, and many purchasers have paid for "Sympathetics" of a most doubtful quality, and which are not entitled to the name; but are merely inferior imitations.
